It was clear to Amakasu that such biologism served the interest of the bourgeoisie both because it prevented people from criticizing the social system and because it provided the illusion that the upper class had always carried, and would always carry, desirable traits. Although interviews were conducted for the publication of the series, neither the publication nor the preservation of their records were intended at the time. The fact that the manifesto considered sending a representative of the club to the Diet itself indicates the social and economic standing of the members that it anticipated.

### Labor Oral History in Japan

First, the Japanese mathematics education was too centered on theoretical mathematics that bore little relation to practical needs of society. The scientific nature of Marxism was based on its epistemological universality, and it was precisely the universality of its scientific nature that appealed to Japanese Marxists.

### Ryuudouji Shimon no Inbou

Gakushū Shōgajji ni Taisuru Shidō ni Tsuite. Fifth, instead of intellectual, critical conversations, they engaged in unproductive cliquish disputes for

their own egos and career ambitions. The oral history method adopted by the GRIPS project was established by Mikuriya Takashi, Representative of this project , and.
