## The Dangers of Over

For example, schools could invite parents to attend staff training events in which methods to encourage PA are discussed, or schools could assign PA calendars or homework in which children are expected to be active with parents.

## FACTORS AFFECTING PERFORMANCE IN SCIENCE OF FOURTH YEAR STUDENTS IN T...

It is also an active subject, containing activities such as hands-on- labs and experiments which makes science well-suited to active younger children Batomalaque as cited by Barredo, 2013. The high and average socio-economic level affects the performance more than the lower level.

## Inside the 4th grader's brain

There is no rewind button on childhood, folks. Scope and Limitation of the Study The study is limited to the personal profile and factors affecting the performance of fourth year students in Science on the National Achievement Test at Libertad National Vocational School under scrutiny. Boys and girls at this age are often quite hostile to each other.

## role of schools in children's physical activity participation: staff perceptions

Inform your child now about the physical and emotional changes of puberty. When asked when students had opportunities to be active during a typical school day, one paraprofessional stated: Pretty much just PE. Most of the experts argue that the low socioeconomic status has negative effect on the academic performance of students because the basic needs of students remain unfulfilled and hence they do not perform better academically.
