## Medieval History Lectures: Dr. Lynn H. Nelson

Graduate Electromagnetism I Lecture Notes - Coulomb's law, Gauss's law, electric potential, capacitance - Surface charge density, Green functions, energy density, computational approaches - Method of images, point charge in the presence of a sphere - Fourier series, Laplace equation in rectangular coordinates, Laplace equation in polar coordinates - Laplace equation in spherical coordinates, Legendre polynomials, azimuthal symmetry - Spherical harmonics, Laplace equation in cylindrical coordinates - Green functions in spherical coordinates - Multipole expansions - Electrostatic fields in dielectrics, energy in dielectrics - Biot-Savart law, Ampere's law, magnetic force, vector potential - Magnetic dipole fields, magnetostatics in magnetic material - Magnetostatics sample problems, Faraday's law of induction - Maxwell's equations, wave equation, potentials of electrodynamics - Quasistatics, Green functions for the wave equation, conservation of energy Graduate Electromagnetism I Supplemental Notes Graduate Electromagnetism II Lecture Notes - Maxwell equations, plane vectors, polarization, Stokes parameters, Jones vector, reflection, refraction - Complex permittivity, resonant absorption, conductivity, plasma frequency - Superposition of waves, group velocity, pulse spreading, dispersion, Kramers-Kronig relation - Fields at the surface of an imperfect conductor, waveguide equations - Rectangular waveguides, cutoff Frequency, resonant cavities, Q-factor - Radiation, long-wavelength approximation, far-field waves, dipole radiation - Linear antennas - Long-wavelength scattering, polarization-dependent cross-sections - Scattering by a conducting sphere, atmospheric scattering - Galilean relativity, ether, Einstein's postulates - Einstein's principle of relativity, Lorentz transformations, Four-vectors - Velocity addition in special relativity, relativistic momentum and energy - Covariant geometry, covariant Maxwell's equations All Jackson Electrodynamics Homework Solutions. Convened by Gregory Jones QC and Dr Áine Ryall 25 June 2019, 9. Kingsland Conference III: The Aarhus Convention Coming of Age? Obviously, this is to meant to redound to the benefit of the general populace.

## United Nations Audiovisual Library of International Law

They are invited regularly to speak on topics including education, private law and climate change at a wide range of events. Then provides the relevant text of any statutes, Model Rules, sections of the Restatement of the Law Governing Lawyers, or other sources, with a link to an open-source versions of the full text, when available.

## Events

The Centre of European Law would like to congratulate Giulio, Aurélie and Yaël on their fantastic achievements. It is issued under a creative commons license and can be used for free in whole or in part for non-commercial purposes. Damages Actions: Living in Interesting Times II

Lunchtime lecture by Mrs Justice Vivien Rose, High Court of Justice Professor Alison Jones in the chair 12.

## **POLITICO**

Opening comments by Michael Honoré, Bech-Bruun Copenhagen, and Managing Editor of EStAL Free, CPD accredited What public support for a New European Energy Union? In the second half, building on the findings from the case studies, Professor Mak will put forward a number of points for further discussion. It was attended by over twenty prominent academics in this field including Professor Frank I Michelman Harvard , Charles F Sabel Columbia Law School , Sir Francis Jacobs KCL , Tony Arnall Birmingham , Paul Craig Oxford , Hans Micklitz EUI , Pavlos Eleftheriadis Oxford , Kenneth Armstrong Cambridge , Johan van der Walt Luxembourg , Mike Wilkinson LSE , and Martijn Hesselink Amsterdam This workshop explored, among others, the theme of dialogic constitutionalism and the changing role and the legitimacy of the ECJ in developing and promoting constitutional and social values in the European polity. The primary goal of the course is to understand the multiple meanings of a transforming event in American history.
