Adaptation. (2002)

She responds that she loves him too. I was watching you out the library window. These traits are adaptations-characteristics or behaviors that give an organism an edge in the struggle for survival.

What is adaptation?

A lovelorn screenwriter becomes desperate as he tries and fails to adapt 'The Orchid Thief' by Susan Orlean for the screen. His insecurity as a person doesn't allow him to act upon his feelings for Amelia Kavan, who is interested in him as a man. Use the resources below to teach the theory of evolution in your classroom.

Adaptation (film)

Since very little light gets to this part of the rainforest, these plants adapted to have very large leaves.

Adaptation. (2002)

Notably, Charlie Kaufman's screenplay was also nominated for an Oscar. Lamarck theorized that behaviors acquired in a giraffe's lifetime would affect its offspring. It was mine, that love.

Adaptation

Laroche introduces the drug to Orlean.

What is adaptation?

A Closer Look The gazelle is extremely fast, and the cheetah is even faster. Donald, who is confident socially, pretends to be Charlie and interviews Orlean but finds her responses suspicious. Random variation results from slight genetic differences.
