Political Geography

The question of political transition and possible economic reform in Algeria, Libya's threat to regional stability and the future of Morocco and Tunisia will all affect strategic decision-making within these countries as well as abroad. Designed to stimulate discussion and debate, Survey of Subsaharan Africa consists of nine systematic chapters that look at central and southern Africa as a whole and twenty-one regional chapters that cover individual countries. Designed to fill the void between the available synoptic and descriptive volumes and highly-specialized texts that are customized for specific topics on Africa, it presents a variety of geographic concepts and theories in clear language - and uses significant detail, case studies, and examples to show how they relate to real-world situations in Sub-Saharan Africa.
