## Imperialism: The Highest Stage of Capitalism

Imperialism is the epoch of finance capital and of monopolies, which introduce everywhere the striving for domination, not for freedom. Eerily prescient of the 2008 bank bailouts and America's overseas adventurism during the last 110+ years.

## Imperialism, the Highest Stage of Capitalism

I don't need to add that the arguments on both sides seem terribly dated: we justify foreign conquest quite differently today. Two million nine hundred and seventy thousand small enterprises employing up to five workers, constituting 91 per cent of the total, utilize only 7 per cent of the total steam and electric power! There were nine sources used to complete this paper. The rise of monopolies leads to super-profits in very few hands - therefore new fields of investment are sought.

## [PDF] Imperialism, the Highest Stage of Capitalism

British imperialism owned almost half of the globe.

## [Classics] Imperialism: The Highest Stage of Capitalism

This is a partial monopoly that allows the firm to inoculate itself against competition. Why does he do this? Despite this, the world wide events of the past decade in the political, diplomatic, military, economic and social fields economic crises; shrinking economic, social and political rights; imperialist interventions; local wars, etc. Modern censuses of production give most complete and most exact data on this process.
