Microsoft Excel Online is the free version of Excel that works in your browser. News, stories, photos, videos and more.

### The Beginner's Guide to Microsoft Excel Online

Macros let you automate Excel, either by letting Excel record what you do in a spreadsheet or by writing simple code. However, you must supply either a value for true, or a value for false. For numeric results, boolean logic is simple and extremely fast, since there is no branching.

### **Mastering Excel on the Macintosh (1989 edition)**

Excel Online includes most of Excel Once you've added data to your spreadsheet and have crunched your numbers with functions, it's time to bring it to life with charts.
