## Sezonno

Dokazana tselesoobraznost' ispol'zovaniya pod sel'skokhozyaystvennye kul'tury sevooborota kombinirovannoy sistemy obrabotki pochvy, vlyuchayushchey otval'nuyu, bezotval'nuyu, melkuyu i poverkhnostnuyu obrabotki. Poetomu dlya resheniya etikh problem perspektivnym predstavlyatsya ispol'zovanie simbioticheskogo potentsiala rasteniy i poleznykh mikroorganizmov.

## Oroshaemye pochvy Kura

Rasteniya zhivut v simbioze s assotsiativnymi bakteriyami, kotorye uluchshayut rost i pitanie rasteniy za schet fiksatsii atmosfernogo azota, regulatsii gormonal'nogo statusa, transformatsii pitatel'nykh i toksichnykh veshchestv v rizosfere, i drugikh mekhanizmov.

## Morphogenetic features of rice meadow

AN SSSR, 1960, 364 p. . Povyshenie produktivnosti i adaptatsii rasteniy k neblagopriyatnym agroklimaticheskim usloviyam i antropogennym vozdystviyam yavlyayutsya aktual'nymi problemami dlya sel'skogo khozyaystva i okhrany okruzhayushchey sredy.

## Desert soils: Properties, pedogenic processes, and classification

Research, Education, and Society: Trends and Prospects: Proc. It was found that the permanent rice cultivation since 1937, compared with rice crop rotation, contributes to the destruction of soil structure and intensification of surface horizons hardsetting.

## Obrabotka chernozemov: analiz i perspektivy razvitiya by Trofimova Tat'yana Aleksandrovna, Paperback

Kniga posvyashchena izucheniyu roli bioticheskikh obrazovanie mikrobnnykh assotsiatsiy, aborigennaya mikroflora i abioticheskikh zasukha, ekstremal'nye temperatury, vysokaya kislotnost' pochvy, toksichnost' tyazhelykh metallov, defitsit pitatel'nykh elementov faktorov v rastitel'no-bakterial'nykh vzaimodeystviyakh, a takzhe roli assotsiativnykh bakteriy v adaptatsii rasteniy k stressam i otsenki vozmozhnostey ikh primeneniya v kachestve biopreparatov v neblagopriyatnykh agroklimaticheskikh usloviyakh. Series Pochvy Azerbaidzhanskoï SSR Other Titles Kûr Araz ovalyghynyn suvarylan torpaglary vñ onlaryn mâhsuldarlyg gabiliâtati.
