In a not-so-veiled reference to U. Set of values is usually perceived as a system of motives, needs, interests, and other determinants of human behavior.

### The Putin Legacy: What is Next for Russia?

As is true elsewhere in the world, men whose wealth relies on government control of strategic economic sectors are unlikely to loosen their grasp on those resources, or on the political machinery that controls those resources, for the sake of reform.

### The Putin Legacy: What is Next for Russia?

However, calls for strengthening democracy coincide with legislation restricting representation and participation. The opinions expressed in this article are those solely of the author and do not reflect the views of the Kennan Institute. Increased openness to trade will likely foster improvements in economic efficiency, management, and transparency, all of which have suffered throughout the post-Communist transition.

### So Different, Yet So Similar: Civil
