### Wiktionary:Frequency lists

Various criteria, other than frequency and range, were carefully applied to the corpus.

### Frequency lists for WFWSE

It also provides a list of 128 non-AWL content word forms that are frequently used in applied linguistics. The article, along with the data used in the sample programs some excerpts of Google ngram data can be found. A list of 3,000 frequent words is available.

### Frequency analysis of the words in the Academic Word List (AWL) and non

We used the same dataset and added word prevalence to it, together with the values from ELP; the concreteness ratings of Brysbaert, Warriner, and Kuperman; and the estimates of word valence, dominance, and arousal collected by Hollis, Westbury, and Lefsrud.

### Word frequency and text type: Some observations based on the LOB corpus of British English texts

Its value is in its focus on school teaching materials, and its tagging of words by the frequency of each word, in each of the school grade, and in each of the subject areas. These are raw unedited frequency lists produced by our software and do not contain the many additional notes supplied in the book itself. Research investigating coverage of the AWL in academic written text has found it to account for between 9.

### Word frequency and text type: Some observations based on the LOB corpus of British English texts

This requires manual action, and it takes many hours to establish a reliable frequency list.
