**5017**

The nutrient content may need to be supplemented with other natural or synthetic materials to achieve a balanced ratio of nutrients.

## **Nutrients and Common Feed Sources for Horses**

The pelleted product is less dusty and easier to apply, but is slower to react with the soil.

## **Environmental Factors Affecting Plant Growth**

Incorporating surface applied manure also distributes the manure and minimizes nitrogen volatilization. Niacin: Vitamin B3, Nicotinamide, Nicotinic Acid.

## **Producing more grain with lower environmental costs**

Once applied, the sulfur oxidizes to sulfuric acid. Moderate applications of animal manure or compost will generally result in adequate soil sulfur levels.

## **Nutrients and Common Feed Sources for Horses**

Proteins are broken down in the small intestine into amino acids that are recombined to make proteins in the body that make up muscle, hair and hoof.
