**Restoration of Antique and Classic Cars : Book One of Antique and Classic Cars by Brian Morgan and Richard C. Wheatley (1975, Hardcover) for sale online**

Even when the exterior looks decent enough to the naked eye, it is not uncommon to find rotted out and rusty floor boards, pipes hanging on by a thread, and parts clunking all over the place on a car that has been kept outside for more years than it should have been. You find him at: Peter Laidler, Howard Cornish Road, Marcham, OXON.

I am definitely coming back to have my car serviced at SL-J. By this point in time I was in the groove, and despite the poor visibility I was thoroughly enjoying driving Valdy. By the time we docked, I was so anxious — we had a very small margin of time to retrieve the car and load it back on the ferry to return to the mainland, and there was zero room for it not behaving itself.

### The Restoration of Vintage and Thoroughbred Cars

While I was doing the inspection, was also working behind the scenes and ordered the Porsche certificate of authenticity.

### Classic Cars

Suspension: Independent front coil springs, wishbones, anti-roll bar, lever arm dampers, live rear axle, suspension by half-elliptic leaf springs, and lever arm dampers. I hurried off the ferry, red suitcase in hand, and was instantly met by Dave on the other side of the glass petition.

### Spencer Lane Jones

Graham Robson unfolds its development history and tells you what to look out for when buying one. There are around 1500 ex-MGB dealers in the UK, but all current BL dealers of whatever persuasion can plug in spares requests to Unipart. No big deal, I can multi-task.
