## Western Painted Turtle (*Chrysemys picta bellii*) Pacific Coast population: recovery strategy proposed 2018

That is the matrilineal line? The Ainsworth Camp contains more than 50 properties from which silver-lead-zinc has been produced. I don't know how many I have of them but at least 6 in good condition and some broken. Those parts of Lot 1 of District Lot 2800, Plan 8124 lying south of the Canadian Pacific Railway right of way, Plan 524-U-1.

## Ministry of Environment

The results do, however, provide an indication that most issues highlighted by the survey are given medium to high priority. Located in the Reed and Tenderfoot Basin. The large complex Slocan fold is wrapped round the northeastern end of the Nelson batholith, east of the Sandon area.

## BRITISH COLUMBIA. CROWN LAND SURVEYS FOR THE YEAR ENDING 31ST DECEMBER, 1894.

They knew of them collectively under the term Nishga. It is now part of the law of the land, and although the Courts of the United States, in suits between their own subjects, will not allow a grant to be impeached under pretext that the Native title has not been extinguished, yet they would certainly not hesitate to do so in a suit by one of the Native Indians.

## HyperWar: Six Years of War: The Army in Canada, Britain and the Pacific [Chapter 5]

I hereby certify that Philip Lyons, personally known to me, appeared before me and acknowledged to me that he is the person whose name is subscribed to the annexed instrument as witness, and having been duly sworn by me, did prove to me that John Lyons did execute the same in his presence voluntarily. These groups included those involved with the development, use, management, and protection of the ground water resource of British Columbia.

## **Protected Areas of British Columbia Act**

There are no known volcanic equivalents to the Phase II syenites in the general vicinity of the southern Hogen batholith. The numerous fissure vein and replacement vein deposits in the Stewart Complex, including the Silbak Premier mine, comprise a common group of simple ore and gangue minerals.

## **Full Multi**

The findings of Smith's excavations at Port Hammond are well described in a number of Smith's publications. This currently includes at least 10,000 unprocessed well logs that have accumulated over the past five years in the regional offices of MELP now MoE.

## **Ministry of Environment**

Their position is that they possess a right of occupation against the world except the Crown and that the Crown has not to date lawfully extinguished that right. The original structural interpretation of Bowman and Uglow of a broad, simple anticlinorium involving huge thicknesses of rock must be abandoned.

## **Preliminary report on a portion of the main coast of British Columbia and adjacent islands included in New Westminster and Nanaimo districts [microform] : Le Roy, O. E. (Osmond Edgar), 1873**

One last issue remains to be dealt with. All those parcels or tracts of Crown land, together with all that foreshore or land covered by water, situated in Sayward District and contained within the following described boundaries: Commencing at the most southerly southwest corner of District Lot 389, Quadra Island, being a point on the easterly shore natural boundary of Kanish Bay; thence easterly and northerly along the southerly and easterly boundaries of District Lot 389 to the northeast corner of District Lot 389; thence due East to the westerly boundary of District Lot 22; thence southerly along the westerly boundary of District Lot 22 to the most northerly southwest corner of District Lot 22, being a point on the northerly shore natural boundary of Small Inlet; thence in general easterly, southwesterly and westerly directions along the northerly, southeasterly and southerly shore natural boundaries of Small Inlet to the northwest corner of District Lot 27; thence southerly, easterly and northerly along the westerly, southerly and easterly boundaries of District Lot 27 to the most southerly southwest corner of District Lot 22; thence easterly and northerly along the southerly and easterly boundaries of District Lot 22 to the southwest corner of District Lot 25; thence easterly along the southerly boundary of District Lot 25 to the most southerly southeast corner of District Lot 25; thence southwesterly in a straight line to Triangulation Station Newton marked by a brass bolt numbered 1391; thence southwesterly in a straight line approximately 1 150 metres to the summit of an unnamed mountain located immediately southeast of Newton Lake; thence due South a distance of 650 metres; thence due West a distance of 1.
