Epistemology (1959 edition)

. The second law governs the activities consequent upon this desire for truth; it organizes the steps we take in discovering knowledge, steps that are normally a continual reflective interchange between the universe we know and the universe that is, in order to reconcile the different accounts reality gives of itself when we are its guests. But as the nightmare persists, he ends by taking it seriously; he feels immodest, indecent, and can no longer bear the shame of strolling around publicly in *iaturalibus*.

A Critical Review of The Empty Tomb: Jesus Beyond the Grave/Part 5

Thomas — a solution to which the three remaining parts of this book will be devoted. Thomas Thomist epistemology can no more expect the texts of St.

Holdings: Epistemology.

Therefore, we shall study the word used by different philosophers to describe wonder, and the notions these words contain, in order to acquire a precise idea of the reality they express.

Then it rejects all thoughts and even geometrical demonstrations as illusions and dreams caused by an evil genius. Indeed, many of the hypotheses offered are mutually contradictory.

Full text of

That is the aim of epistemology. Must one of them be rejected in favor of the other? We have tried to avoid this pitfall, but no one is more conscious than the author of the imperfect nature of the result.

Holdings: Epistemology.

The Divine Artist is present to each and every one of His works through His conserv- ing activity and as their model, for they are but copies of divine ideas.

Epistemology by Regis, L. M. (translated by Imelda Choquette Byrne)

However, realist philosophy could not be reborn without meeting along its return route the idealist philosophy that had led it to the grave. Descartes started from an existing truth whose nature he used as criterion for discovering the first principles of metaphysics: he started from mathematical truth. Section II: The Structure of Psychological Reactions The first phase of our inquiry has shown us the objective factors that give rise to a problem in the soul.

Epistemology.

This cause must then be found in knowledge other than scientific; but there are only two other types: popular knowledge, and another type greatly resembling it, Scholastic philosophy.
