I assume that quite a lot of that product is imported.

A proposal for lessening the excessive of bread corn in Ireland [microform]

Private education is costly to produce, whereas public schooling is free.

A proposal for lessening the excessive of bread corn in Ireland. (eBook, 1741) [tools.github.ffxiv.cn]

The consensus is that the area of land cultivated globally is not likely to increase much in the shorter term. If the grain predicament continues, should the millers and feed suppliers be permitted to introduce genetically modified grain to our shores? Members need only look at the profits that are made by supermarkets and compare them to those of many farmers, who do not make any money for their labour.
