## The Nature of Belief

So in these instances, at least, the soul-making process would need to continue on in the afterlife.

## Plato: A Very Short Introduction

Such factors include corroboration, desirability, and ethicality of the proposition, and also its centrality and entrenchment in the doxastic system. However, this suggestion creates two problems: one for the proponent of EBM specifically; and one for Kuhn's account more generally.

Developments in Humanistic Psychology In the late 1950s, a group of psychologists convened in Detroit, Michigan, to discuss their interest in a psychology that focused on uniquely human issues, such as the self, self-actualization, health, hope, love, creativity, nature, being, becoming, individuality, and meaning.

## Peter Cave

The Politics of Community: A Feminist Critique of the Liberal—Communitarian Debate. Psychologists interested in this aspect of experience want to discover what makes each of us unique. Over the centuries those positions philosophers thought were the best have been revealed to have problems.

## Plato: A Very Short Introduction

The term is used in different ways in religious discourse, but a common element is that the central tenets of one religion are true, and claims which are incompatible with those tenets are false.

**Desire and Belief: Introduction to Some Recent Philosophical Debates // Reviews // Notre Dame Philosophical Reviews // University of Notre Dame**

Clarity rating: 5 The text appears very clear and any jargon used is fully defined and explained through copious examples and applications. There

are a number of themes that fall under the domain of philosophy of religion as it is commonly practiced in academic departments in North America and Europe.

### **An Introduction to Equality of Opportunity**

Evil, then, is the result of both the creation of a soul-making environment and of the human choices to act against what is right and good. And there is certainly nothing like the old Marx—Weber—Durkheim triad that was the staple of courses in sociological theory up to the 1970s. Three which have been prominent historically and still receive special attention in contemporary philosophy of religion discussions are the ontological, cosmological, and teleological arguments.
