Victoria in Future

The Community Vision is, in part, an expression of how Council will work with the community to apply and direct resources under its control towards achieving the desired future.

Community Assistance Workshops

Transportation services that provide increased access to impacted residents beyond just the elderly population were reported as a key concern. Requirements Council must develop, maintain, and review a Community Vision with its municipal community using deliberative engagement practices.

Victoria in Future 2019 released

Over 30 planners from around the country met with Trinidad residents, local business owners, DC government agencies, and other stakeholders to discuss the future of the neighborhood. They are reaching out to local planners and others that would like to continue to work with the community moving forward. It provides the framework for the setting of rates, statutory charges, service fees and charges and other income sources.

Community Emergency Resilience Plan 2017

Scenario C: Hybrid: This scenario explored a mix of both scenarios A and B. This is influenced by many key drivers and barriers for communities across the preparedness chain. The community must be consulted and involved through deliberative consultation processes.
