## Acute kidney injury caused by intravascular hemolysis after mechanical thrombectomy

What are the symptoms of glomerular disease? Legrand M, Le Cam B, Perbet S, Roger C, Darmon M, Guerci P, Ferry A, Maurel V, Soussi S, Constantin JM, Gayat E, Lefrant JY, Leone M, support of the An 2016 Urine sodium concentration to predict fluid responsiveness in oliguric ICU patients: a prospective multicenter observational study.

## Acute Kidney Injury: A Guide to Diagnosis and Management

Expansion of extracellular fluid volume is an inevitable consequence of diminished salt and water excretion in oliguric or anuric individuals.

## Acute Glomerulonephritis Nursing Care Planning and Management

Researchers also use clinical trials to look at other aspects of care, such as improving the quality of life for people with chronic illnesses.

## Office of Aerospace Medicine Technical Reports

Differentiating between AKI and chronic kidney disease CKD is essential as CKD itself is not an uncommon risk factor for AKI. IgA nephropathy was not recognized as a cause of glomerular disease until the late 1960s, when sophisticated biopsy techniques were developed that could identify IgA deposits in kidney tissue. C In patients with hypertension, CKD is most often due to the nephrotoxic effects of beta- blockers.
