Sahamit Phatthana Company Limited is a joint-venture company between four different companies: Ari Construction, Lao Consulting Group, Xaysana Construction and Asia Investment and Services Company Limited. The water head is measured at 300m, while the water catchment will extend over an area of 500 square kilometres and the reservoir itself will cover an area of five square kilometres. The mountain is higher and hence, it could be quite cold as you have to catch it very early in the morning.

Another senior company official also said that the feasibility study for the project will take at least 18 months before the results are known and its

viability can be assessed. The proposed Nam Phak hydropower project is located in La district, Oudomxay province. The photo can not be retrieved once it is deleted.
