Captain Raptor and the Moon Mystery book by Kevin O'Malley

Although the text is slightly halting in places, this would be an excellent addition, especially for boys, to any elementary library. Astro Bunnies by Christine Loomis, Captain Arsenio: Inventions and Mis adventures in Flight by Pablo Bernasconi, Captain Raptor and the Moon Mystery by Kevin O'Malley, Lego Man in Space by Mara Shaughnessy, Man on the Moon by Simon Bartram, Orson Blasts Off! This book is great for young readers, ages 4- 7, who love dinosaurs and astronauts, especially boys.

KidsBooks

. Captain Raptor is such a cool concept. Facts need to be found.

CAPTAIN RAPTOR AND THE MOON MYSTERY

This book will engage young readers, and they will want to continue reading more of Captain Raptors adventures. The plot lot was lacking in depth and interest, but kids will enjoy the detailed illustrations and silly humor.

Patrick O'Brien (artist)

. This comic-book style story is GREAT to introducing students to Science Fiction as a genre, as well as the idea that a story can fit into more than

one genre. He is helped out by several earthlings of the animal variety and a final four-page foldout illustration shows him partying with his fellow aliens.
