**The environmental revolution : a guide for the new masters of the world : Nicholson, Max : Free Download, Borrow, and Streaming : Internet Archive**

Pride of having reached the moon is cancelled out by the humiliation of having gone so far towards making a slum of our own native planet. Comparing this to later works on environmentalism is useful, as it indicates how very conservative and Right Wing the movement was in its early days, before it popularised itself in the 1960s, primarily with the publication of course of Rachel Carson's classic Silent Spring.
