Gore's climate film has scientific errors

First, it's important to understand that the atmosphere is extremely thin.

The Globe Is Warming To Al Gore

Jack, I got good things for you to air, but you don't put them up there. An Inconvenient Truth was the most popular documentary at the 2006.

Climate science comeback strategies: Al Gore said what?

Wickersham If you learned that Shakespeare had written his plays just to make a buck, would that make them any less powerful and timeless?
Annie from Atlanta writes: I think the guy actually cares about global warming. . .

Al Gore

Why wouldn't you invest in something you believe in. The counter communications didn't arise because the numerous studies and reports didn't express it clearly enough.

Al Gore

The only rational question would be, how bad will we make it? We face a true planetary emergency. Larsen B, an enormous ice shelf in Antarctica, was thought to be safe for at least 100 years despite global warming. Do we need to conserve and live our lives more ecologically friendly????.

Climate science comeback strategies: Al Gore said what?

God bless him, but he was simply looking for a way to remain relevant while out of office.

Al Gore's global

One man, Al Gore, has the guts to stand up to special interests in the best interest of the world in an attempt to stop a potential global environmental crises. The irony is, of course, the treatise that Mr.
