### **The Charles Dickens Letters Project**

Preowned book, may show wear.

### **Typescript Letters from John Morgan to Church leaders, 1878**

It contained only 590 letters, but he highlighted one of the problems which had caused his and several previous editions to leave out easily findable material: Owing to the curious operations of the law of copyright, it will not for at least forty-two years be possible for any one edition of Lamb's correspondence to contain all the letters. No new edition of the letters has appeared in over thirty years, and this alone is reason enough for the present volume. It is used for the recognition of journals, newspapers, periodicals, and magazines in all kind of forms, be it print-media or electronic.
