Generalized theory of interference, and its applications

Transactions of the Cambridge Philosophical Society.

Associativity

Simulation results obtained reveal that shorter and better routes can be discovered during route re-constructions. This paper presents a new, simple and bandwidth-efficient distributed routing protocol to support mobile computing in a conference size ad-hoc mobile network environment. Previously published content will continue to be available on the Oxford Journals platform.

SCIRP Open Access

Thus, Green's later mathematical contributions, which exhibited knowledge of very modern developments in mathematics, could not have resulted from his tenure at the Robert Goodacre Academy. Route requests are broadcast on a per need basis.

SCIRP Open Access

Although Green and Jane Smith never married, Jane eventually became known as Jane Green and the couple had seven children together; all but the first had Green as a baptismal name. Several journals in this list are published by Cambridge in cooperation with or on behalf of other entities such as learned and professional societies.
