What a chemistry student should know about the history of Prussian blue

Rogers, and Jill Kraye eds.

Pierre Gassendi (Stanford Encyclopedia of Philosophy)

This backdrop of sympathetic sources, not entirely faithful to the original, allowed a substantial and diffuse influence of Gassendi's views in British thought. Sylvia Murr et Geneviève Stefani, eds. They were politically and socially savvy enough to promote their libertine views in a manner and style that verges on the secretive.

GIUSEPPE ZAMBECCARI: A Seventeenth

His Latin is learned if a bit stultified, rife with quotations from Virgil, Horace, Cicero, Tertullian, and others.

Observationes Medicae

On the other side, to show that Violent Passions, and even Frights may sometimes, tho very seldom, do good, as well as harm; I shall here add a Relation that was circumstantially made me by the learned Person himself, to whom the Accident happen'd.
