## Giambattista Vico > Notes (Stanford Encyclopedia of Philosophy)

Topics include the connections between logic and rhetoric, the philosophical aspects of argumentation including argumentation in philosophy itself, philosophical views on the nature of rhetoric among historical figures and during historical periods, philosophical analyses of the relation to rhetoric of other areas of human culture and thought, and psychological and sociological studies of rhetoric with a strong philosophical emphasis. There is an old discussion about the extent to which methods of investigation of the natural sciences can be cross applied to the social sciences.
