The importance and value of art, craft and design

As can be expected in a collection, some pieces resonated with me more than others, which is why I haven't gone for a higher rating.

They examine the biological and behavioral similarities and differences between nonhuman primates and human primates us! All I can say is wow! The pieces individually were good but I found it incredibly jarring to read as you can see it took me over a month to get through. Told through the perspective of a young boy, I have found that students connect with this complex topic in a way which is accessible, opening up fruitful, engaging conversations about nationhood, identity, and belonging. They provide a way for people to express themselves and are a way of entertainment.
