Then began another long chase, but the brig proved her superiority on this point of sailing by gradually drawing out of reach of the enemy's bow chasers. Experience had taught them that 18-pounders were the medium weights from which the highest possible efficiency could be derived ; and when 24-pounders were introduced in the American frigates they pronounced them innovations, contrary to all established rules, and mirthfully pictured the disasters that would result from the experiment, In the years preceding the War of 1812 American and British officers frequently exchanged visits, so that the latter were thoroughly aware of the AMERICAN FRIGATES TOO HEAVILY ARMED. It had none of these.
