## Iran, Russia, China, Turkey celebrate 'collapse' of US

AATSEEL also publishes an annual membership directory. These ideals may be applied imperfectly at home and pursued inconsistently abroad, but the U. First, if you think the United States and its closest allies are going to write all the rules themselves, think again.

That will mean all those that have been waiting for the US to reduce its footprint will be running to fill the vacuum. If we are honest with ourselves, we have to acknowledge that Washington sometimes thinks it is perfectly okay for might to make right and for winners to take all. While the largest proportion of its activities and members concentrate in the area of Russian, AATSEEL encompasses all Slavic and East European languages, literatures, linguistics and cultures.

By contrast, China favors a more Westphalian conception of order, one where state sovereignty and noninterference are paramount and liberal notions of individual rights are downplayed if not entirely dismissed. Russia has sent warplanes to Libya and Syria. Part II deals with China's foreign policy and economic modernization, and examines policies in the same set of institutions.

Russia is pushing its defense systems, and Turkey wants to work with Iran, Malaysia and Pakistan to improve economic relations and expand its role in the Mediterranean. Both states have often been isolated from major trends or detached from the political forces nurturing them. Papers on non-Slavic East European subjects of interest to Slavacists may also be considered.

Americans may exaggerate the benevolent nature of U. Shorter or less formal studies, communications, and compendia in the same areas will be considered for publication as notes. The United States got most of what it wanted during the creation of the Bretton Woods system and had enormous influence over the subsequent evolution of that order, but it still had to compromise on a number of issues, and it frequently failed to get everything it wanted.
