## The Future of Education 2050: 7 Things That Will Change

Class size does make a difference, especially when a teacher is expected to work with a large number of at-risk students, whether they are disabled, limited in their English, or poor. In a recent study of 32 schools in the San Francisco Bay area, the frequency with which teachers collected, interpreted, and analyzed data for instructional improvement was found to differ among schools that were closing the achievement gap versus those that were not. Do not miss opportunities to get involved.

In addition, they must have demonstrated financial need and leadership ability and be a U. We don't suggest throwing out the use of classroom observation to foster teacher improvement; rather we advocate that teacher effectiveness be judged and demonstrated by both classroom instruction and the learning gains of students. One additional concern about the use of student learning assessments in the teacher evaluation process is the way in which learning is assessed.
