### On leisure in August

People participate in different activities because they find them to be pleasurable and because the activities alter their physical state.

### Leisure In London (1830

Less than 8% of the US work force works at least 60 hours a week. The London Season was a very important time and everyone who had any sort of prestigious status made sure to attend. Heritage Images Getty Images In looking back at the images I saved this year, I noticed that one shape kept recurring: the circle.

### How Looking at Art Can Shape the Way You Look

This is valid to an extent as the overall standard of leisure increases with more income however, it can also be argued that even with a low disposable income, leisure can still be enjoyed. My father likes to make bread in his spare time. This sort of forces the grain out.

### Leisure In London (1830

The upper class in nineteenth century London was exactly as you would expect it to be; constructed of aristocrats, ruling families, titled people, and religious hierarchs. Later on, people would go to the theatres, the opera or to balls. In addition to providing protection from the effects of the behavior, it is important to look at the cause of the behavior.
