**Nickel Aluminium Bronze (NAB) Casting Manufacturer:: N.A.B. Casting Manufacturer**

Welcome to the premier industrial source for Non-Ferrous Castings in Wisconsin. Available for short to long and small to large production runs.

## **Castings**

However, this is not the case for wrought iron, which resists rust due to its purity, and stainless steel, which is protected from corrosion by the presence of chromium.

## **LAXMI METAL WORLD**

We hope you enjoy the content and find it useful.

## **AMT**

In addition to quality raw materials and top end processing equipment, AMT also employs best practices for alloy melting including inert gas blanketing, vacuum assist pouring for our solid mold products, and vacuum chamber pouring for aluminum shell molds. Materials are ordered under the relevant material specifications including AMS, ASTM, MIL-S, MIL-A, and a host of other specs as required. Iron Fe is the principal element of Ferrous Metals.

## **C96400 Copper Nickel 70/30**

. Copper also oxidises to a green colour.
