Employment

These projections, which are neither predictions nor forecasts, reflect identifiable long-term economic and demographic trends which have been implicitly or explicitly incorporated into the models.

Employment

USD, SAAR Quarterly Dec 2020 1,153,346 1,224,009 , NSA Monthly 2016 2,702,095 2,674,749 Annual Release Information The BLS presents labor force and unemployment data for census regions and divisions, states, and selected substate areas from the Local Area Unemployment Statistics program tables 1 to 4. Median age of the labor force, by gender, race, and ethnicity, 1994, 2004, 2014, and projected 2024 Group 1994 2004 2014 2024 Total 37. Sept 1987 to Dec 1987 Sample redesign based on the 1986 Population Census.

Department of Labor and Workforce Development

Moreover, exogenous shocks, such as a natural disaster, a war or a terrorist attack, could cause the economy to deviate from these trends.

Labor Force Data

Classifications The main classifications used in the Labour Force Survey documented in Labour Statistics: Concepts, Sources and Methods ABS Cat. BLS projects that, during the next decade, the White labor force will have an average annual growth rate of 0. There is an increased number of teens attending school and a decreased number of teens participating in the labor force.

Labor Force Projections : U.S. Bureau of Labor Statistics

BLS projects that the number of men in the labor force will grow by an annual average of 0. The metadata include several fields regarding the source of collected data, the type of adjustments made to harmonise them when needed and the type of imputation method used to fill missing data.

Labor Force Data

It then declined to 82. Each month, census division estimates are controlled to the national totals; state estimates are then controlled to their respective division totals. Their growth rates are expected to continue to be much faster than those of the other race and ethnic categories.
