Sociometry

The Self Many Elders spent time reflecting on their past experiences, sharing stories of poor choices and mistakes they made, which signifies their ability to confront their former self and highlight the positive outcomes and personal benefits of this self-reflection. Our research shows that there are different ways of experiencing old age.

Managing aging in young adulthood: The “aging” table dancer

Questions were a mix of open-ended and closed questions based on the Explanatory Model Interview Protocol Kleinman covering topics such as how AN Elders define successful aging, what helps them to age well, as well as whether or not they believe their community is supportive of them aging successfully.

Disengagement

The Gerontologist, 32 3 , 318—326. Gerotranscendence is also not a linear process that individuals progress through, nor is it something worked for, something earned, or what an Elder strives to achieve.
