Min aḥādīth al

Dr Santhosh Lad is an outstanding Super Specialist in Neurosurgery with over 48 years of exceptional experience gained from different hospitals across the world including US, UK, Germany, India and Oman. He has attended several National and International conferences and made original paper presentations of repute. The Mukhtaṣar is structured into three parts—called generations ṭabaqāt —, each of which relies on its own source which al-Shaṭṭī abridged.

Min aḥādīth al

Dr Kamraan Saeed completed his Orthopaedics training in UK, after having valuable experience of working in NHS, England for 18 years he moved to Oman in 2013.

Badr Al Samaa

He led the department of anaesthesia during various accreditations like JCI 2016 and PSFHI 2018. Dr Shaji Abraham is a Specialist Neurologist with vast amount of expertise garnered during his training as well as his long tenure working in a tertiary medical college in India. A majority of these were laparoscopic surgeries.

Badr Al Samaa

To his credit, he has set up a modern neurosurgery department for the MOH, Oman and was the head till 2015. Along with simple procedures, Dr Geeta Deepak also executes the most complicated gynaecological surgeries with expertise.

A biography of Ibn ‘Abd al

This post is no book review though. He authored more than 400 works, most on ḥadīth and sunna, e.
