McKnight's Physical Geography: A Landscape Appreciation

McKnight taught geography at UCLA from 1956 to 1993. Geoscience Animations help students visualize the most challenging processes in the physical geosciences with schematic animations that include audio narration. Stephen Stadler of Oklahoma State University and Randall Schaetzl of Michigan State University provided particular expertise in climatology and pedology, respectively, as well as furnishing broad-scale critiques of other parts of the book.

Physical Geography : A Landscape Appreciation by Darrel Hess and Tom L. McKnight (2007, CD)

In the last few years, then, enthusiasm for geographic training has swelled, although there is much lost ground to recover. Introduction to landform study -- The unknown interior -- Composition of the crust -- Some critical concepts -- The study of landforms -- Internal and external geomorphic processes -- The question of scale -- The pursuit of pattern -- 14.
