The other Enlightenment of a Catholic woman mathematician

But it should be said that the task of collating, and synthesising, so much mathematics from inscrutable original sources, and with no prototypes with which to form comparisons, must count as a highly original achievement. Paul Revere covered less distance and was memorialized in a poem, but Sybil was just a girl helping out her dad. But the city of Milan is proud of their daughter and there are monuments that have been erected to celebrate her life.
