## Back Matter on JSTOR

Quite the contrary, in the introduction to his major constitutional treatise, he depicted his undertaking as a systematic reflection on the meaning and content of constitutional theory, and not, as the critics believe, as a malicious attack and subversion of the entire modern European jurisprudential tradition. Validity would ultimately refer to nothing more than the efficacy of certain actors to impose a new basic norm. Historical-institutionalists explain political action as partly constituted by history, partly by institutional position, and partly by a set of norms, all of which influence what human beings regard as their interests and the best means for achieving those interests.

## American democracy : Murphy, Walter F., 1929

This last point can help one to better understand his seminal redefinition of popular sovereignty in terms of a theory of democratic legitimacy with a critical intent: the sovereign, according to Schmitt, is the one who has the power and the authority to take a concrete, total decision on the type and form of the political existence, that is, to determine the existence of a political unity in its entirety. There is, in fact, an incongruity between his theory and his practice, one that diminishes the significance of his contribution to sociology.

## EconPapers: American Political Science Review

After the Great Compromise, Southerners tried to get even more seats in the House. Virgil's Aeneid, the first six books, and Ovid's Metamorphoses. Essays in European and oriental literature; arr.

## American Democracy in Theory and Practice

Perhaps the most important finding of his many publications on the subject was that prejudice tends to diminish whenever members of different groups meet in terms of equal status in the pursuit of common objectives.
