### Footnotes

Hence just as the appetite is the principle of human acts, insofar as it partakes of reason, so are moral habits to be considered virtues insofar as they are in conformity with reason. Unde, cum virtus sit habitus quo perficimur ad bene agendum, sequeretur quod in sola ratione esset, et sic nulla virtus esset nisi intellectualis. Abraham Calov, commenting on 2 Pet.

### Op. 1a

Granted that some passions are, in some way, referable to good only, or to evil only, even then the movement of passion, as passion, begins in the appetite, and ends in the reason, since the appetite tends to conformity with reason. He merely wished to emphasize the fact that a sinner is not formaliter justified by the imputation of Christ's justice.

### Actual Grace

Therefore a man can fulfil all the commandments of himself.

### Op. 1a

Ita scilicet quod prudentia sola divina intueatur; temperantia terrenas cupiditates nesciat; fortitudo passiones ignoret; iustitia cum divina mente perpetuo foedere societur, eam scilicet imitando. Each Evangelist preached his message in a different place, and each wrote down in simple style what he had preached with view to telling clearly the story of Christ, and not with view to explaining the other Evangelists. These writers argue as follows: It is impossible to deduce from Revelation or experience a definite rule by which man could determine the conditions on which the grievousness of a temptation depends.

### E navarro

The creation itself, therefore, being entirely gratis data, all that succeeds it, supernatural grace included, must be negatively undeserved, in as far as it was not necessary for the recipient to exist at all. Le contexte l'indique clairement: {SINGLE LEFT-POINTING ANGLE QUOTATION MARK} N'attaquez pas le juste 15 ; car Dieu le défend, et s'il tombe il se relevera; mais pour l'impie c'est la ruine irréparable.

### **Concupiscence: Sin And The Mother Of Sin**

Augustine 354—430 expressed his mature views in the treatise, *On Marriage and Concupiscence* 419 written against the Pelagians.

### **SUMMA THEOLOGIAE: The necessity of grace (Prima Secundae Partis, Q. 109)**

This is incompatible with a robust view of divine providence. It is true also of the angels. This argument merely proves that needs no further.

### **Cytochrome P450 (CYP) in fish**

And in order to have this perseverance does not, indeed, need another , but he needs the Divine assistance guiding and guarding him against the attacks of the , as appears from the preceding article. *Passiones ex seipsis non habent rationem boni vel mali.*
