## Singularities and Complex Geometry

Embeddable CR-structures and deformations of pseudoconvex surfaces by J. .

## Algebraic geometry and singularities

Feng Multi-polynomial invariants for plane algebraic curves by E.

## Singularities and Complex Geometry

Feng Complement of arrangement of hyperplanes by T. Yau Gauge theory on resolutions of simple singularities and affine Lie algebras by H.

## Singularities and Complex Geometry

Jacques Faraut, Soji Kaneyuki, Adam Koranyi, Qi-Keng Lu, Guy J Roos A number of important topics in complex analysis and geometry are covered in this excellent introductory text. Nakajima On branch curves of algebraic surfaces by A.

47047447

Guo Chern root algorithm and local index theorems by Y. Kobayashi The topology of complements to hypersurfaces and nonvanishing of a

twisted deRham cohomology by A. .

**47047447**

Yang Stokes regions of a simple singularity by J. Written by experts in the subject, each chapter unfolds from the basics to the more complex.  
Wong Enumeration of combinations of rational double points on quartic surfaces by J.

**47047447**

. The exposition is rapid-paced and efficient.
