## DTL Standards

DIGITAL LEARNING STANDARDS effective 2020-2021 The State Board of Education and the North Carolina Department of Public Instruction are committed to providing personalized, digital-age education that K-12 students need to be successful in college, careers, and as globally engaged, productive citizens. School and district administrators should use these competencies to improve their practice, build capacity in their staff, and drive student learning within their schools. Implementation of the NC Standard Course of Study for Digital Learning Grades K-12 will begin in the 2020-2021 school year.

## DTL Standards

The Digital Learning Competencies for Administrators are to be viewed within the context of the current North Carolina Standards for School Executives as extensions in relationship with the ways that digital technologies impact and affect schools. The standards are designed to be delivered by classroom teachers in all curricular areas and grade levels.

## DTL Standards

Administrators should model the behavior they expect from their staff and students and should continually seek to represent their schools and districts with the way they convey themselves both on and offline. The revised Professional Standards provide a foundation from which new evaluation instruments for Technology Facilitators and Library Media Coordinators were developed.

## DTL Standards

The Digital Learning Competencies for Teachers, informed by International Society for Technology in Education ISTE , International Association for K-12 Online Learning iNACOL , and the NC Professional Teaching Standards, are to be viewed within the context of the current North Carolina Professional Teaching Standards as extensions in relationship with the ways that digital technologies impact and affect schools. These sessions were well attended and provided district teams with a robust overview of the Digital Learning Competencies as well as an opportunity to begin the planning process for implementation in July 2017. These standards are critical building blocks for the education of our students.

## **DTL Standards**

The provided recommendations for state actions that will support K-12 schools as they become digital-age learning organizations.
