## Human Security In East Asia

An obvious dilemma is that while achieving security for individuals requires expanding the scope of our security discourse, such wide-scope discourses may overload the security agenda — rendering it too ambiguous to put into practice.

## Human Security In East Asia

Exploring how ASEAN tackles these issues will illustrate the challenges the region faces in its attempt to achieve human security.

## Human Security in Southeast Asia (Routledge Security in Asia Pacific Series)

In other words, the relationships determine what system the society will employ to address the question of securing minimum security needs. Although it is too optimistic to expect that a human security approach is fully practiced in these three countries, it is still uncertain how the human security notion is received and interpreted.

## Human Security in East Asia : Challenges for collaborative action, Paperback ...

It is considered an apparent 100 Human Security in Southeast Asia rejection of calls by international watchdogs for the 10-nation grouping to take a more aggressive stand against abuse within member-states. Its primary object is people and communities.

## Human Security in Southeast Asia (Routledge Security in Asia Pacific Series)

While the state has the responsibility with coercive power to protect the security of individuals as well as its territory, it needs to keep coercive power accountable and limit it, and allow civil society to have relations and exchanges free from state intervention or oversight by its several coercive agencies — military, police and civil bureaucracies — which is vital to harnessing the capacity of individuals and groups within civil society.
