## **Texas Transportation Plan (TTP) 2050**

Transportation impacts our daily lives. In the past, ODOT would take departmental project requests and try to divide up the resources with as much equity as possible between the regions.

## **Michigan Building the Road of the Future between Ann Arbor & Detroit**

We need a new transportation plan to help us chart our course for the next 10 years and decide how to prioritize key investments. The top scoring segments in the low hanging fruit scenario are grouped along planned TxDOT projects and prioritized by lower cost and windows of opportunity for development.

## **Cavnue is building the future of roads**

Outside of work, Brittany can be found road tripping with her husband and son, cooking something reckless in her kitchen, and singing to her brand new son. In developing OEM-neutral standards for the implementation of the corridor, Cavnue will draw on an advisory committee of automotive and autonomous mobility companies, including Argo AI, Arrival, BMW, Honda, Ford, GM, Toyota, TuSimple, and Waymo. A police vehicle is about to enter the viaduct while southbound on Fourth Avenue Northeast Friday, Jan.

## **Residents invited to comment on draft state transportation plan for pedestrians, bicyclists**

The second phase is technical analysis.

## **R.I.'s Compact Size Could Drive Transportation Reboot — ecoRI News**

Surrey has the highest bus ridership growth of any large city in North America. High Street will conduct a scenario planning workshop with MDOT and its partners to discuss and explore consequences and trade-offs to help answer key questions like, what type of transportation system are needed in each scenario and what new investment strategies or policies are needed in each scenario. See Glossary for more details.

## **High Street Consulting, Inspired transportation solutions for a complex world**

When not changing diapers or battling with his two rescue dogs for bed space, Kevin can be found running around the neighborhood or attending soccer matches with his better half and baby girl. Surrey is a dynamic city that is growing quickly. The contemporary on was initially promoted to manage demand but was deemed politically unacceptable.

## **MDOT grant to create 2,200 new jobs in Detroit for road improvements near Hamtramck border**

The Station will be the centerpiece of the innovation district where new mobility solutions will be created and tested on smart infrastructure, including the Michigan Mobility Corridor. One of her biggest accomplishments there, was identifying and implementing a new financial management software and automating processes that vastly improved the overall accounting functions.
