West of the tower there was a nave of thirteen bays with alternate compound and simple piers. The restoration of the lantern was done by Sir G.

Interpreting Ely Cathedral

The monastic buildings lie on three sides of the church. Walsingham had to employ an architect, and secured the services of a certain 'Master John' and afterwards of a 'Master John atte Greene', masons. Thank you for the encouraging words on the travel posts.

No fragment of the pre-Conquest church has been found but it is suggested on the evidence of early graves that it occupied the east part of the present nave: the bodies of the early abbesses were removed to make way for the new building in 1103, that is twenty-one years after its commencement. The feature for which the chapel is most famous is the series of seventy-four stone stalls.

The high altar was placed on what would have been the chord of the Norman apse as the Norman altar had been. The painting is of the 15th century and of high excellence; it probably formed the 'Table' above an altar; the panel is believed to have been found in a cottage in Ely during the 19th century.
