Annual accounts

Many other nations are also adopting trade-control programmes similar to those administered by the EU and the USA. It is for this reason that the risk management process is incorporated into the day-to-day management of our business, as well as being reflected in the Group's core processes and controls.

Annual Report 2019

As we drive towards our vision to create a cleaner, healthier world, I remain confident in the future.

Annual report

Having reviewed the current performance, forecasts, debt servicing requirements, total facilities and risks, the Board has a reasonable expectation that the Group has adequate resources to continue in operation, meets its liabilities as they fall due, retain sufficient available cash across all three years of the assessment period and not breach any covenant under the debt facilities. Our insurance subsidiaries are adequately capitalised and transfer risks to third-party insurers where economical, effective and relevant. We are prepared to exit a country if we believe we can no longer operate in that country in accordance with our standards and applicable law, and we have done so in the past.

Annual report

Shell has voluntarily self-disclosed potential violations of sanctions in the past. RNS may use your IP address to confirm compliance with the terms and conditions, to analyse how you engage with the information contained in this communication, and to share such analysis on an anonymised basis with others as part of our commercial services. The Solvency II capital position as at 31 December 2019 is estimated.

Annual Report and Accounts 2019 Highlights

We may fail to assess or manage these and other risks properly. There is increasing focus on the role of oil and gas in the context of climate change and energy transition. Risk description: Our future performance depends on the successful development and deployment of new technologies and new products.
