Salt

It also provides a residual lasting effect for the surface during the snow event. Article content A mountain of road salt piled in the parking lot of the Great Lakes Elevator Company in Owen Sound towers over a front end loader as it fills one of three waiting transport trucks in Owen Sound, Ont. It is no longer used for industrial purposes but has a far more interesting one now.

The US accounts for more than 99% of Canada's salt trade. In Ontario, the solution right now is to use less road salt on driveways, sidewalks, and paved parking lots. That is for healing and medical excursions.

Salt Management Plan

Morton Salt produces their salt all three ways making pure salt in ponds, working underground as in the other mines, and using steam to evaporate the salt brine.

Salt shortage expected to continue this winter

The famously poor state of roads in Quebec is due in part to heavy use of road salt. The salt mine was discovered in 1866 by Sam Platt during a search for oil.
