**STATE SCHOOL  
TRANSPORTATION  
REQUIREMENTS AND FUNDING**

The school bus must meet NH inspection requirements. The report should be forwarded to the school principal no later than the following day of the occurrence of the incident.

### Pupil Transportation Guide: A Guide for Massachusetts School Administrators

An October 1998 study by the Association for the Advancement of Automotive Medicine concluded that children restrained in three-point belts exhibit a similar pattern of injury to those in two-point belts; however, three-point belts appear to be effective for the lumbar spine. In all city, local, and exempted village school districts, the board shall provide transportation for all children who are so disabled that they are unable to walk to and from the school for which the state board of education prescribes minimum standards pursuant to division D of section of the Revised Code and which they attend.

### Student Transportation

Attention NYS SBDIs: Approval has been granted by NYSED for virtual REFRESHERS ONLY.

### Student Transportation

Pupil transportation, also known as school busing, has become one of the most important segments of the American educational system. Reimbursement percentages vary from zero to 60% depending on the relative wealth of the town or towns making up the district. This discussion may be held in a closed session and the results and reasons shall be disclosed only with the approval of the proposed contractor.

### Law section

The School Bus The school bus remains the safest form of surface transportation in the United States.
