

# Specific interactions and biological recognition processes

CRC Press - Molecular recognition

Description: -

- Literacy -- Brazil -- History.

Advertising -- Psychological aspects.

Peace -- Religious aspects.

Ligand binding (Biochemistry)

Molecular recognition. Specific interactions and biological recognition processes

- Specific interactions and biological recognition processes

Notes: Includes bibliographical references and index.

This edition was published in 1993

Filesize: 46.65 MB

## Dynamics and the Problem of Recognition in Biological Macromolecules

Cholesterol organization in membranes at low concentrations: effects of curvature stress and membrane thickness. Set enrichment We used DAVID ; to perform gene set enrichment on the genes involved in interactions learned by PARADIGM.

## Systems biology

Examples of R 2p rates that increase linearly with the hGH concentration in the entire experimental concentration range. B Alternative regulation models for the transcription, translation and activation nodes.

## The role of water in the structure and function of biological macromolecules

Cambridge, England: Cambridge University Press.

## Solved: Molecular Processes Depend Upon Sequence

Figure 4 shows electrostatic interactions.

## BioPlex Interactome

Yuli Huang is a professor of cardiology at Shunde hospital, Southern Medical University. These binding events elicit a protein phosphorylation cascade, which causes motor proteins to switch the rotation of the flagellar apparatus such that, depending on which direction it is spinning, the bacterium either tumbles or is propelled forward. Figure 37 shows that the self-complementarity of biopolymers is driven primarily by hydrogen-bonding interactions.
