Facilitation Skills for Offender Groups: Training Curriculum Package

Probation staff will work closely with the residents and have the opportunity to influence positive change in them and prevent reoffending.

Facilitation Skills for Offender Groups: Training Curriculum Package

But also try to find out what's going on, and see if there are other ways to address that person's concerns. Lins ethnography examines the structure of program implementation framing the problem as an extension of the concept of the street level bureaucrat.

Offender Reentry/Transition

Bichler-Robertson, Prevalence Estimates of Psychiatric Disorders in Correctional Settings, paper submitted to the National Commission on Correctional Health Care, Chicago, Illinois, 1999.

Basic skills training

Thus, while parent or sibling criminality is a predictor of recidivism, we assume that ones past associations can be addressed by developing interpersonal skills that focus on prosocial values. In his classic, Street Level Bureaucracy 1980 , Michael Lipsky argued that line staff, rather than policymakers or agency directors, actually make policy.

Seven essential skills for social workers

Lobaugh 1998 Filial therapy with incarcerated fathers: effects on parental acceptance of child, parental stress, and child adjustment. These scales are composites of many of the individual predictors already represented in the table.

Formerly Incarcerated Individuals and the Challenges of Reentry

The culmination of the Symposium was the development of regionally based reentry action plans designed to reduce the likelihood of recidivism through improved coordination and collaboration and the delivery of enhanced evidence-based programs and services. Use body language to encourage other group members to support you.

‘Social work values are essential in my work with high risk offenders’

Justice Quarterly, 29 3 , 347-383. The inverse variance method of weighting was used to calculate the average effect size. Interventions within community corrections are considered effective when they reduce client risk and recidivism and therefore make a positive long-term contribution to public safety.

Offender Reentry/Transition

This includes the prisoners interaction with family and children.
