. The amount of variation explained in water quality parameters using multiple regression models that combined LULC and LPMs was generally lower than that from NDVI or vegetation phenology metrics derived from time-series NDVI data. Under the new water pollution act signed by President Kennedy in July 1961, the most far-reaching approach in history is being made to stream pollution abatement.

## **History of Reducing Air Pollution from Transportation in the United States**

A Report on a Survey by the Kansas State Board of Health with cooperation of the USDHEW, PHS. . This is done by looking for a relationship between the Lawrence and Scott condition index LSCI and two tidal processes: the immersion level IL and the local oceanic flushing time LoFt.
